HIRE

General and event hire specialists

McAvoy Hire offers an unrivalled portfolio of portable and modular accommodation solutions. These are based on over 30 years' of vast knowledge of and expertise in the design, manufacture and installation of quality and versatile accommodation that can be shaped to the specific needs of each customer.

Formed from Greenline, (NI), Maccorm, (ROI), and SUR, (GB), McAvoy Hire is a stand-alone company within the McAvoy Group, the market leader in portable and modular buildings. Our reputation within our industry is just one of the many features which sets McAvoy Hire apart.

A network of McAvoy Hire depots in Belfast, Dublin, Cork, Mayo, and Oxford ensures a fast response to the specific portable accommodation needs of customers wherever they are based.

McAvoy Hire customers can count on consistently high quality accommodation from McAvoy Group's state-of-the-art manufacturing plants at Dungannon and Lisburn in Northern Ireland.

General Hire

As Ireland's leading supplier of portable accommodation, McAvoy Hire offers a comprehensive range of quality and versatile products to suit every requirement. Whatever your need and whenever you require portable accommodation, McAvoy Hire has proven products that can be adapted to meet your specific requirements for additional space.

Education Hire

The consistently high quality and flexibility of our accommodation, which is designed and manufactured to the specific requirements of an individual school, have made McAvoy Hire the preferred choice of education bodies. Our solutions include fire-rated classrooms, science labs, IT suites and storage units.

Event Hire

The quality and flexibility of our accommodation are now recognised by event organisers across Ireland and the United Kingdom. As a result, we regularly provide a broad range of units, from changing rooms, hospitality suites and toilets to information points and ticket booths to many of the biggest events including music festivals, agricultural shows and sports occasions.

Construction Hire

McAvoy Multi Space and Safe Space anti-vandal units are now the preferred choice of many of the leading construction companies. Timber-framed and steel-framed units can be provided in your corporate colours and in line with your corporate identity. They are a proven solution for staff (washing and toilet facilities can be included) and for the safe storage of costly machinery, components and supplies. Safe Space can also be provided with its own diesel generator for lighting and other equipment.

Comprehensive Solutions to Your Accommodation Needs

McAvoy Hire offers the most extensive range of accommodation as follows:

OFF-SITE

McAvoy Off-Site Solutions is the market leader in the design, engineering, production and contract management of off-site modular construction. Modules are manufactured in our purpose-built plants using the latest processes and techniques such as lean manufacturing. Projects successfully completed range from complex buildings such as hospital wards and operating rooms to classrooms, IT suites and lecture rooms in schools and commercial offices.

Modular buildings are constructed to meet the requirements of individual customers and are ideal for shops, offices, canteens and as stop gap accommodation during expansion projects or for temporary buildings.

SAFE SPACE

McAvoy Safe Space units provide a high level of security for staff and other users, as well as for costly equipment and property. The benefits include security, a long life span, low maintenance costs, excellent vandal and arson resistance and ease of relocation. Our solutions include designs for stacking the units and a range of certified fire-rated units.

The units are used in a range of applications including welfare units (which are available with their own diesel generator for light, heat and plumbing), stores, changing rooms, offices – standard and fire-rated, halting accommodation and ticket booths.

MULTI SPACE

Multi Space units are multi-purpose and highly adaptable. They offer cost-effective, quality and robust solutions for both long and short-term accommodation requirements such as offices, hospitality suites, marketing suites, stores, toilet blocks and ticket booths. The units can be easily transported, relocated and adapted as needs change. They can also be double-stacked or supplied on a wheeled chassis for easy positioning in a factory, yard or within an existing office site.

SITE SERVICES

Our commitment to customers is to make the process of hiring and purchasing accommodation as quick and as efficient as possible. We offer a comprehensive support that involves our site and maintenance teams working alongside customers to ensure the site is right and the unit safely located.

RE-SITING

McAvoy units are designed to be strong and adaptable. These features make it easy and highly cost-effective to relocate or reposition the units to suit changes in your requirements. A unit can be moved by our experienced site team and be brought back into full operation with the minimum of disruption.

MAINTENANCE

We value our customers and are committed to excellent support services throughout the life of a hire contract. Our maintenance services have been developed to ensure that all our customers can count on a hassle-free experience. An essential element in the McAvoy service is the scheduled maintenance of our buildings to the highest standards throughout the hire period by our professional and highly trained site and maintenance teams.

TRANSPORT

To ensure customers fast and efficient delivery and installation services, we have invested in a modern transport fleet that includes vehicles with the latest heavy lift equipment. This enables us to deliver and position the accommodation when and where you require it. All of our drivers are fully trained to operate the equipment safely and efficiently. They are equipped with the required safety gear and are provided with extensive training such as CITB Plant Operators Safety Awareness.
